

Mobile phones and masts – what is their impact on the health of you and your children?

A science event on the effects of
Radiofrequency Radiation
from
Mobile Phones and Masts

Senior Citizens Club, 45 Eversley Road, Bexhill TN40 1HA

Monday, June 12th, 6-8pm

“We are flying blind with 5G”

**The conclusion of US Senator Blumenthal at a Senate hearing where the telecommunications industry revealed
there was virtually no research on the health effects of 5G (2019)**

Come and listen to the evidence, find out how risks of harm can be reduced, and put your questions to:

- **Professor Kent Chamberlin**, University of New Hampshire, USA, specialist in computational electromagnetics and expert adviser to the New Hampshire Commission report on 5G (2020)
- **Dr Erica Mallery-Blythe**, founder of Physicians for Health Initiative for Radiation and Environment.

Chaired by **David Gee**, Bexhill resident, former Senior Adviser on Science, Policy and Emerging Issues, European Environment Agency.
